EXPERIENCE

Full Stack Web Developer

Jan 2023 – Present

Pixel Values Technolabs, Nagpur

- Developed and maintained dynamic React.js applications with reusable components and optimized state management.
- Designed and integrated RESTful APIs to enable seamless frontend-backend communication.
- Built responsive, cross-browser compatible user interfaces using Bootstrap 5 and Tailwind CSS.
- Optimized application performance through efficient database queries and frontend enhancements.
- Managed deployment and maintenance of production applications with a focus on scalability, security, and reliability.
- Collaborated closely with cross-functional teams to deliver client-focused, high-quality software solutions.

WordPress Developer

May 2022 – Dec 2022

Pixel Values Technolabs, Nagpur

- Developed custom WordPress themes and templates for fully responsive websites.
- Integrated plugins and third-party APIs to enhance website functionality and user experience.
- Managed and optimized MySQL databases for efficient data storage and retrieval.
- Performed troubleshooting, website maintenance, and performance optimization for client projects.

PERSONAL PROJECTS

RentUp - Property Rental Platform

[Live Demo](#)

Developed a modern property rental platform using React.js. Implemented dynamic property listings, advanced search and filter functionality, booking workflows, and user authentication. Responsive UI designed with Bootstrap 5 and Tailwind CSS.

Blog Website

[Live Demo](#)

Built a responsive blogging platform with React.js. Features include post creation, categorization, commenting, and smooth client-side navigation. Styled with Bootstrap and modern CSS techniques.

GoWash - Laundry Service Platform

[Live Demo](#)

Created a laundry service scheduling application using React.js. Implemented service selection, booking slots, order tracking, and user management. UI is fully responsive using Tailwind CSS.

MyShop - eCommerce Webpage

[Live Demo](#)

Developed an eCommerce web application with React.js frontend and Node.js backend. Features include product catalog, cart management, and secure checkout workflow. Styled with Bootstrap 5 and Tailwind CSS.

B2B Lead Generation Platform

[Live Demo](#)

Implemented a lead generation platform with React.js frontend and Node.js backend. Includes automated lead capture, email notifications, admin dashboard for lead tracking, and RESTful API integration with CRM systems.
